## PERSONAL PROJECTS

### My Portfolio

- I have designed this website to highlight my projects and achievements, as well as provide a glimpse into my personality and work ethic. From competitive programming to collaborative projects, I am excited to share my journey with you. Take a look around and let's connect to discuss how we can work together to bring your ideas to life.

### Login page

- CS:GO login webpage! As a passionate gamer and web developer, With a sleek and intuitive design, users can easily log in and access their game stats and progress. This project showcases my skills in web development and my ability to create user-friendly interfaces.

### Guess the number website game

- Guess the secret number in the mysterious white box , If your guess is too high or too low, you'll get a hint.

### Ping-Pong game

- Ping Pong is a two player game, player A on left and player B on right. Both player only moves up and down by pressing key 'w' and 's' for player A, key 'Up' and 'Down' for player B. Player who touches the ball scores one point which is recorded at the top of the game screen.
